ENPRESS LLC – 14x47 DI Exchange Vessel

EASTLAKE, Ohio – ENPRESS LLC, is pleased to announce the introduction and availability of its NSF Approved 14x47 DI Exchange vessel with a 4.5” Buttress top opening.

Utilizing ENPRESS’ patent pending and industry exclusive liner design, our computer controlled cut lets us keep the length of our vessel consistent within 3/16”, the most consistent tank height in the industry. The exclusive co-polymer polypropylene liner formulation provides superior performance in both hot and cold temperature environments, along with superior impact and abuse resistance. The 14x47 DI Exchange vessel from ENPRESS also uses a high impact and abuse resistant plastic base that offers superior rolling characteristics, reduced transportation weight compared to traditional rubber bases, reducing overall cost and shipping weight of the vessel, and design characteristics that will keep the base attached to the vessel.

All Residential and Light Commercial vessels are backed by an exclusive manufacturer’s 10-year limited warranty, and are 100% Made in the USA. Non-permanent tank installations for conventional deionization applications are backed by a 5-year pro-rated limited warranty.

ENPRESS LLC is a worldwide leading manufacturer of composite pressure vessels for use in water treatment. ENPRESS tanks are manufactured with an industry exclusive liner design and formulation that offer superior benefits and features...100% Made in the USA. More information is available on the company’s website at www.enpress.com or by calling 1-866-859-9274.
